

# Improvements at Cemetery

During the past two years the Harlan Cemetery Association has replaced 600' of asphalt with new concrete roadway, removed brick pillars and installed fencing along the east entrance. Bequests by former area residents Mr and Mrs Everett Atkinson, directly to the Cemetery Association made the work possible.

In March 2012, the Cemetery Foundation gave a \$10,000 donation to the Cemetery Association to help with the concrete roadway expansion planned for 2012. The Foundation continues to research the best method of putting the more than 6,400 burials online.

**A bequest made** by former Harlanites Dick and Barb Nelson to the Cemetery Foundation to build a new sculpted iron east gate entrance was completed in the Fall of 2011.
