# Concrete road repairs on tap at Harlan Cemetery

**HARLAN** - The Harlan Cemetery Association, with in-kind help from the City of Harlan, is removing damaged areas of asphalt making room this spring and summer for a variety of repairs featuring new five-inch-thick concrete roadways.

Work is being completed by Bruce Burger Construction and Stowe Red-E-Mix.

Cemetery board members said the new concrete is part of its ongoing improvement efforts planned for the cemetery.

The Harlan Cemetery Assoc. (est. 1872) is privately run by a volunteer five-member board - it is not owned by the City of Harlan. The Association is regularly confronted with long-term expenses that include new concrete roadways and monument repairs -- as well as a escalating mowing and beautification projects all on a limited permanent-care budget. Cemetery Association board members include Don Stowe, Eldon Erickson, Mickey Williams, Bill Early and Al Ickes.
